***IT'S IN OUR DNA: PRUNING, CUTTING AND
HARVESTING TOOLS FOR PROFESSIONALS***

We've been making tools since 1886, and a deep understanding of the needs and experiences of the people who work with our tools day after day is in our DNA. Based on extensive research and advanced technology, our highly reliable electric secateurs, chainsaw, tying machine and olive harvesters are designed by professionals, for professionals.

By delivering sustained, incomparable performance and efficiency, comfort as well as safety, our tools will make working in your vineyard, orchard or ornamental garden much easier. Our tools are ***Powered by Performance*** and will meet even your highest requirements and boost your productivity. From light pruning to very intensive cutting and demanding olive harvesting, our range is designed for a multitude of viticulture, fruit growing and horticulture activities.

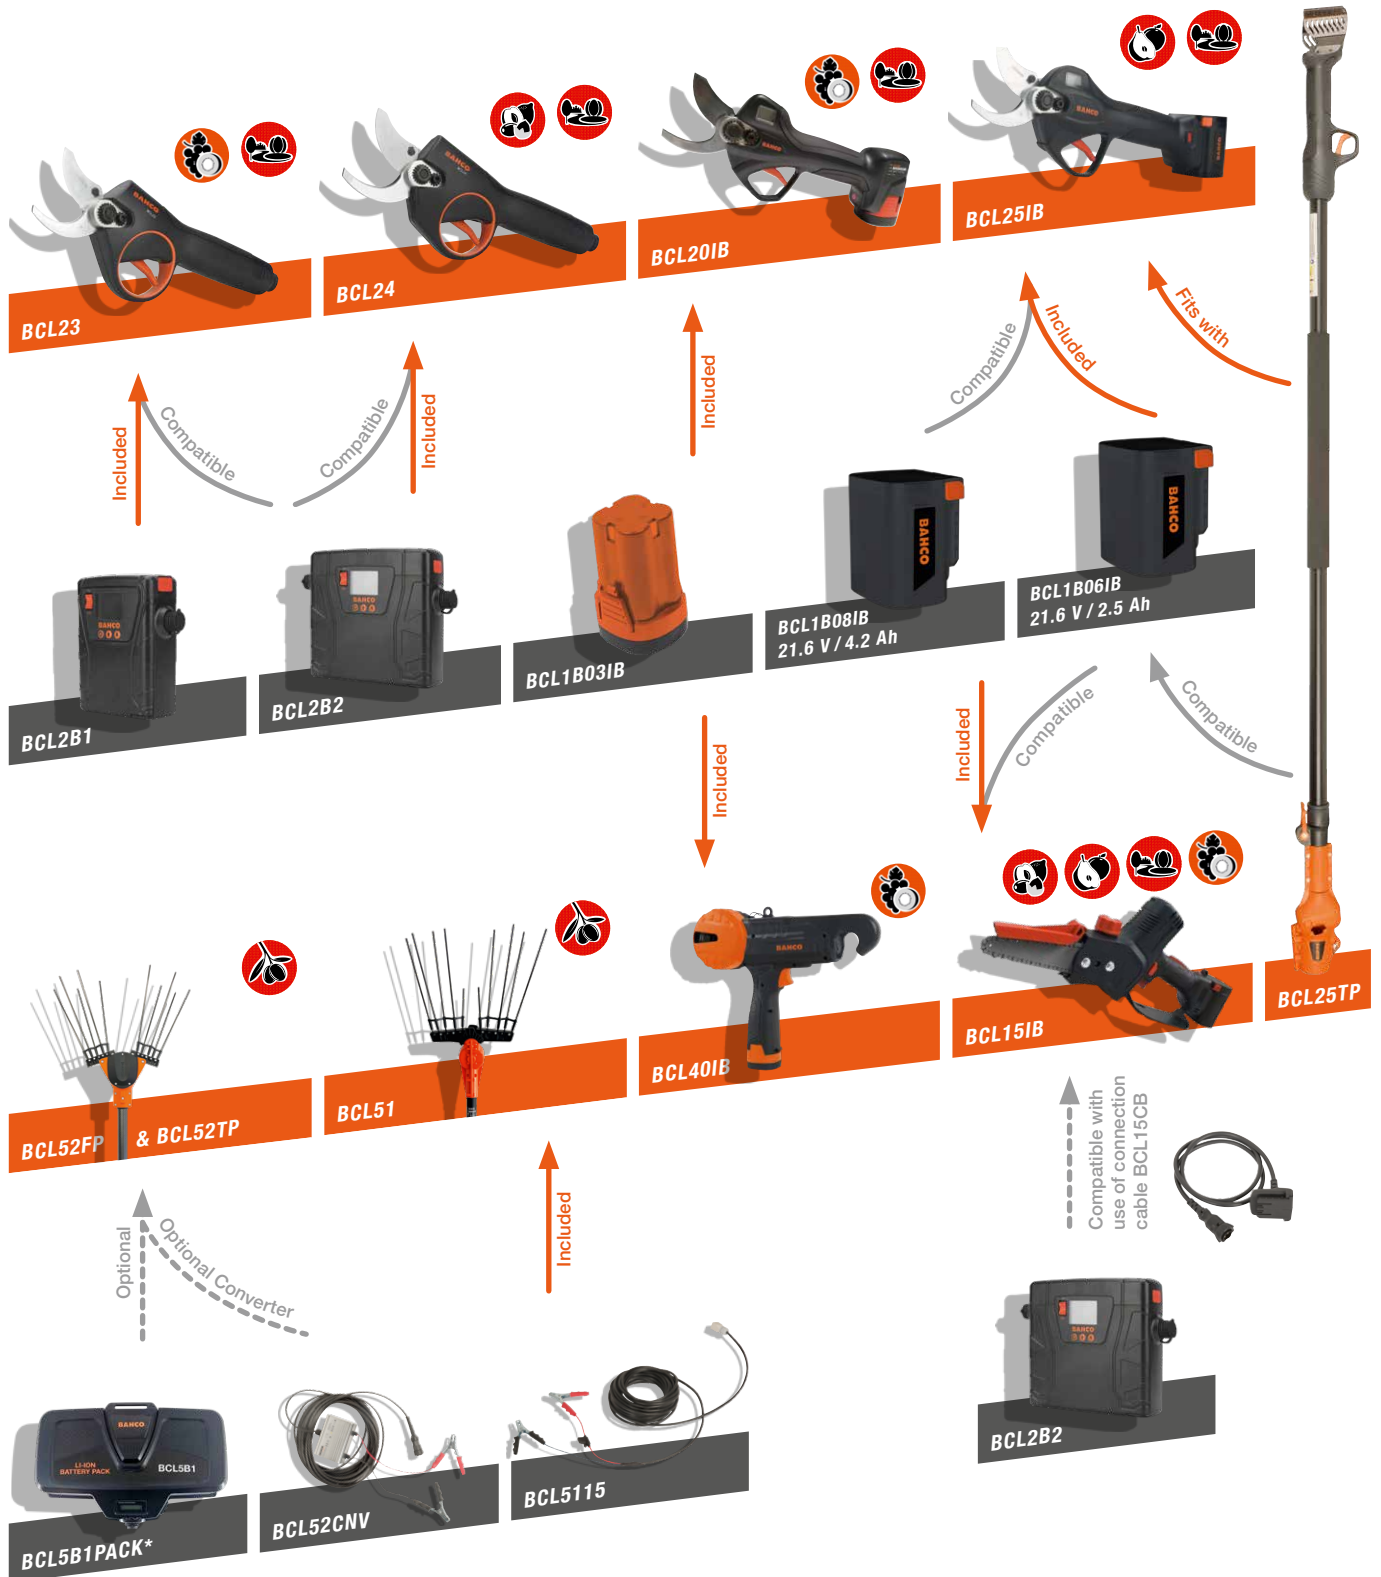

WORK UNINTERRUPTED AND EFFORTLESSLY

Whether pruning with our heavy-duty secateurs or a cordless system, the sturdy yet lightweight design and high-performance brushless motor allow for a high degree of comfort and precision, even when cutting extremely hard wood. The high-quality Li-ion batteries of our secateurs offer excellent power capacity and permit long use without interruption. Their blades made of high quality Japanese SK5 steel ensure excellent cutting durability and rust resistance. The progressive cut with two blade openings can be fully adapted to the needs of the application and allows you to cut branches up to 45 mm in diameter. For the most demanding tasks, you can use our new chainsaw, which cuts branches up to 110 mm in diameter.

The chainsaw works perfectly together with either our cordless secateurs BCL25IB or our heavy-duty secateurs BCL24. The combination of chainsaw and BCL24 is ideal for olive tree pruning. Before pruning your olive trees, for efficient harvesting you can use our new range of olive shakers, which we offer with either fixed or telescopic pole.

HIGH POWER SUPPLY COMPATIBILITY

KEEP THINGS RUNNING SMOOTHLY WITH HIGHLY COMPATIBLE POWER SUPPLY SOLUTIONS

BCL23

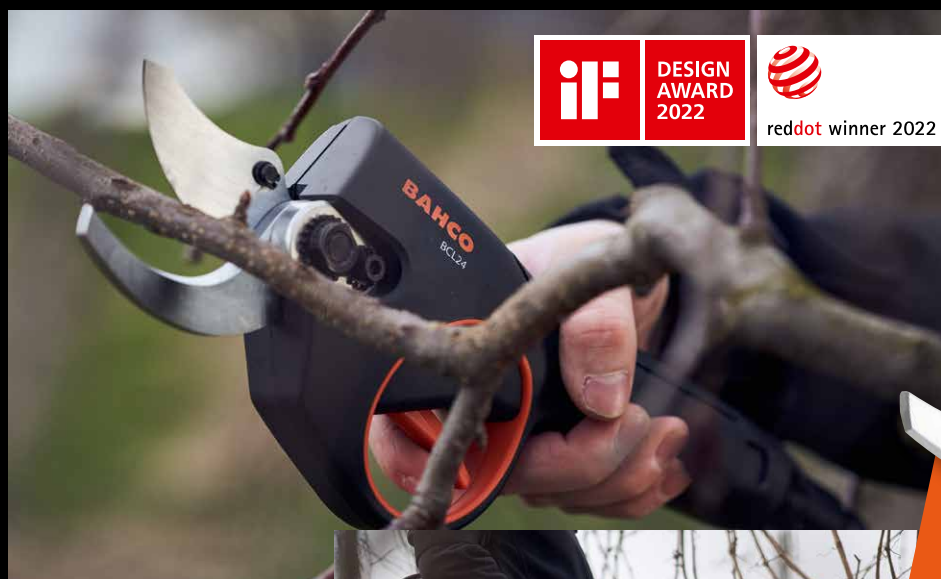

**WORK ALL DAY WITH
GREAT EASE AND HIGH
PRECISION**

Our powerful BCL23 secateurs are the reference for intensive vine pruning, enabling you to efficiently prune with a high level of comfort, precision and with an exceptional cutting power, Turning Heavy Pruning Into Light Work. It effortlessly cuts small to thick branches and soft to very hard wood.

The BCL23 secateurs comes with a 147 Wh battery. The comfortable, back-friendly carrying system connects easily to the belt with the clip.

BCL24

CUT THICK AND EVEN THE HARDEST WOOD WITH EASE

Our extremely powerful BCL24 secateurs are the reference when it comes to cutting and pruning very thick and hard wood. The secateurs provide excellent cutting power, a very clean finish of the cut and allows for accurate cuts even on exceptional hard wood. Turning Heavy Pruning Into Light Work, especially when pruning stone fruit, olive, citrus and nut trees.

TWO GREAT COMBINATIONS OF CHAINSAW WITH SECATEURS

The BCL15WB chainsaw and our BCL24 secateurs are the ideal combination for intensive pruning of olive trees. The chainsaw can be powered by the batteries of the secateurs via a connection cable. The BCL15IB chainsaw in combination with our BCL25IB secateurs is a great pair for pruning and cutting fruit trees. The batteries of the BCL25IB secateurs and BCL15IB chainsaw are easily interchangeable.

BCL52FP/BCL52TP

MAXIMISE EFFICIENCY IN THE OLIVE HARVEST

Our lightweight and easily manoeuvrable BCL52FP and BCL52TP olive shakers with powerful brushless engines ensure smooth operation during olive harvesting. The right combination of material selection, weight, balancing and vibration not only minimises the impact on olives and branches, but also has a positive effect on the health of users, who are usually exposed to various musculoskeletal risks caused by the high vibrations of shakers.

CHOOSE THE POWER SUPPLY OPTION THAT MEETS YOUR NEEDS

Our BCL52FP and BCL52TP olive shakers can be operated with our 36 V battery BCL5B1 or, with our 36 V-to-12 V BCL52CNV converter, operated with a 12 V car battery system. The 12 V car battery system can be easily charged with the fully automatic charger BBCE12-6.

BCL52FP

- Fixed carbon fibre pole of 2,500 mm with additional 700 mm extension
- Maximum working range of 600 mm with combs opened
- Minimum vibration stress for olives and branches

BCL52TP

- Telescopic carbon fibre pole with adjustable length of 2,160–2,960 mm
- Maximum working range of 600 mm with combs opened
- Minimum vibration stress for olives and branches

BENEFIT FROM A GREAT SELECTION OF PRACTICAL BASIC FUNCTIONS

Our BCL51 olive shaker offers all the essential functions and is an excellent choice to easily perform all the most common tasks in olive harvesting. With its robust 2,300 mm aluminium pole and additional 1,000 mm extension, it allows for comfortable working at greater heights. The BCL51 olive shaker is supplied with a 14 m power cable for operation with a 12 V car battery system.

WE TAKE CARE OF YOUR TOOLS

DEDICATED SUPPORT, PROFESSIONAL SERVICE AND REPAIRS

We maintain a network of more than 100 service and repair facilities in 15 countries and, in addition, an internal support with three service and repair centres in France, the Netherlands and Spain. There, your tools will be maintained and repaired by qualified experts and with original spare parts. To get the best out of your tools and keep them working season after season, we want to help you take care for and protect your tools. Proper maintenance and care of your tools will significantly extend their lifetime and reduce the overall cost.

On **BCL23** and **BCL24** from delivery date, providing the annual maintenance is carried out in a certified service centre after the first year. Consumables like blades, which are subject to "wear and tear", are excluded from the warranty.

On **BCL20IB, BCL25IB, BCL25TP, BCL40IB, BCL15IB, BCL52FP, BCL52TP, BCL51** and **all batteries**. Consumables like blades, which are subject to "wear and tear" are excluded from the warranty.

WIN A FULLY EQUIPPED TOOL TROLLEY

SIGN UP TO MY BAHCO, REGISTER YOUR TOOLS AND GO IN THE DRAW!*

Check our website to take part in one of our monthly competitions! All you need to do to participate is **scan the QR code**, **sign up for My Bahco** on our website and **register your tools** with their serial number. This way, you'll be automatically entered into the next prize draw and have the chance to win a practical tool trolley – fully equipped with 158 tools.

* T&Cs apply from 01 September 2022 to 28 February 2023. Scan the QR code for more information.
